State Scholarship Portal – Prematric

Department FAQ's (Frequently Asked Questions)

1. **What is the State Scholarship Portal (SSP)?**

   The State Scholarship Portal (SSP) is an integrated e-Governance platform developed to automate and streamline the management of various scholarship schemes implemented by various departments of the Government of Karnataka.

2. **What is the SSP Prematric Scholarship?**

   SSP Prematric Scholarship is a Government of Karnataka initiative that provides financial assistance to students studying in Classes 1-10th

3. **Who are the Sponsoring departments in SSP?**

   Departments such as Social Welfare, Tribal Welfare, Backward Classes Welfare, Department of minorities etc, are some of the Government agencies that are responsible for implementing various programs and initiatives for the welfare of the socially underprivileged groups in the state.

4. **What is the role of a Sponsoring department in SSP?**

   The department's activities include financial aid schemes and other social development initiatives. The department operates under the jurisdiction of the Karnataka State Government.

   .

5. **What are the criteria for a Sponsoring department in identifying student applications?**

   While applying for a scholarship, a student has to provide Caste & Income details in the SSP application form. Based on student caste, category, and income criteria set by the sponsoring departments, applications will be displayed to respective department user logins under three buckets, i.e., Green, Orange & Red.

6. **How can a Sponsoring department process the Scholarship Applications?**

   Sponsoring departments can log in to their respective Taluk/ District/ Admin Logins using the login credentials provided by the State Scholarship Portal to verify, process, and

sanction the applications. They can verify student academic details, personal details, and other necessary relevant documents before approving or rejecting the application.

7. **What is the meaning of the bucketing system in SSP?**

   A bucketing system is a process of categorizing the students applications by performing the name match algorithm between the student's name as in SATS, name as in Aadhaar, Caste/Income certificate, etc.

8. **Why are applications shown under different buckets for processing in SSP?**

   During the name matching process, if a student's name match score is greater than or equal to 60%, such applications will be shown under the Green bucket. If a name match score comes in between 21%-59%, such applications will be shown under the Orange bucket. Name match score less than 20% will be shown under the Red bucket, respectively.

9. **Can I reject Red Bucket Applications?**

   Yes. It is advised to check all the details displayed thoroughly before processing (approving or rejecting) the applications in any of the three buckets. If the details of a student are found to be incorrect or irrelevant, then the approval officer may reject the application by selecting a suitable rejection reason provided.

10. **Can an approval officer process more than one application at a time?**

    Yes, SSP has provided a bulk mode option in the green bucket for the approval/sanction process of applications. But it is advised to check the details of the students before making the bulk process or even one application at a time.

11. **Is there an option to edit the details entered by a student in the SSP application form?**

    Yes, sponsoring departments have edit options in the respective logins. Before processing the application, incorrect details can be edited and updated.

12. **The student’s name as in SATS and Aadhaar is different. How to correct?**

    There is an option provided in the sponsoring department Admin Logins to edit the incorrect Aadhaar details provided in SSP during the registration process.

13. **The student's name as in caste/income details does not match with student's name as in SATS or Aadhaar. How to correct?**

    If the entered details in the application form are found to be incorrect, then an approval officer can rectify the mismatch issues by editing the correct details in SSP. In this case, an approval officer can edit the Caste/Income details of the students using the option provided in the sponsoring department logins.

14. **Student name as in UDID card is not matching with student's name as in SATS or Aadhaar. Can students able to apply?**

    During the application submission process, a pop-up window is displayed for a student that the name as in Aadhaar and name as in UDID card. The student is prompted to select **"Displayed details are correct? Yes or No"** option and proceed. Also, it is mentioned in a note that if the entered UDID details are incorrect, your application may be rejected by the sponsoring department.

15. **The student has not entered the UDID number in the application form. Is it possible to add?**

    SSP has provided an option **"ADD UDID(PREMATRIC)"** to add the UDID details of a student in the Disability Welfare Department Admin Login. Upon collecting the correct details from a student, the department can add the details and process the application for scholarship disbursal.

16. **The student has made changes in the name, and the same has been updated in SATS, but in SSP the previous name is still displaying. How to correct?**

    FY 2022-23 onwards, SSP is receiving the data through API from SATS, which means if there is a change in a student's name and it is updated in SATS, the same will be shared with SSP on real-time basis. Thus, need not to edit it again.
